Metalon Distributor: Werner

RE:  
Your Products:

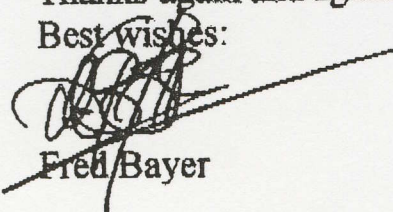

Both your products for oil and gas enhancement are being used in my station wagon a 1991 Pontiac 2000.

Only regular gas is being used and the oil is changed every 6000km. Even though the mileage is already 310257km the engine runs so smooth, you can barely hear the engine running when sitting inside the car. Also to my astonishment, the Emission check, turned out to be phenomenal! (report attached to this letter) I'm also pleased to tell you, that I don't have a single drop of oil on my new driveway. (Look again on my mileage)

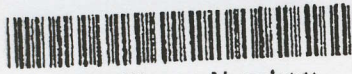

When talking to others and mentioning your products I'm always asked how much it costs. My reply is always a question: You mean how much it costs not to use it? The simple fact is I not only save money but also costly downtime for repairs on my engine I don't need to do because of your products. And that includes the automatic transmission.

I take this opportunity to thank you for supplying your phenomenal products. It was one of my few lucky days in my life when I met you and your products.

Thanks again and again!  
Best wishes:

  
Fred Bayer

# ONTARIO DRIVE CLEAN PROGRAM VEHICLE EMISSIONS INSPECTION REPORT

Certificate Number:  
182 540 3200

Test Date/Time: 28/01/2002 @ 11:26

### VEHICLE INFORMATION

Year: 1991	Make: PONTIAC	Model: 6000
VIN: 1G2AF81T3M6223232	Engine Size: 3.1 L	Cylinders: 6
GVWR: 2005 kg	Estimated Test Weight: 1588 kg	Inspection Type: R

### ASM 2525 EMISSIONS INSPECTION

2525 TEST			
	Limit	Reading	Result
