ULTRAWEAR LUBRICANTS
1116-2ND AVE. SOUTH
CRANBROOK, B.C.
VIC 2B3

Dear Vic,

In the past two or three years now, I've been using your products; Metalon Aerosol, Megalene Gas Treatment, Metalon Penetrant, Megasel Diesel Fuel Treatment and Metalon M Oil Treatment.

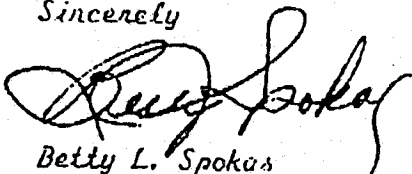

Since I've been using them I have found an outstanding difference in bearing and small engine part life, not to mention the longevity of our tractor and truck motors.

I have used Metalon M Oil Treatment in brand new small engines in our Toro Greensmowers, and have found that the motors last longer than when I didn't use it. As a matter of fact, I rebuilt one 14HP Kohler engine and used the Metalon M Oil Treatment in it and was pleased to see that the motor lasted almost (Very Close) as long as my new motors.

Before I used Metalon M, even with proper oil changes, new motors would only last two seasons before they would need to be rebuilt or thrown away, depending on the damage. I have two motors that are now going into their third season and they only need minor electrical repairs. Needless to say, your products are outstanding and have saved our Club a lot of money for parts, repairs and down time.

I plan to continue to use Metalon Lubricants and highly recommend them to others.

Sincerely

Betty L. Spokus

Assistant and Golf Course Mechanic
